Maria N. Daniil studied Architecture at the Aristotle University of Thessaloniki (Dipl. Architect, 1998) and at the Bartlett School of Architecture, University College London (Master of Arch. in Architectural Design, 1999 – Prof. Peter Cook). She obtained her PhD in 2007 at the Aristotle University School of Architecture, where during 2007-2010 she participated as a Lecturer (PD 407/80) in Architectural Theory classes and in Architectural Design studios.

From 2010 onwards she is an Assistant Professor at the Technological Educational Institution of Central Macedonia (Serres, Greece), educating students within the Civil Engineering Direction of the Civil Engineering & Surveying Engineering and Geoinformatics Department. She leads or participates in the teaching of subjects such as Architectural Drawing Methods, Building Construction, Regulations, Architectural Synthesis, Environmental Design, Building Restoration and Rehabilitation.

Her research interests focus on Architectural Design, Architectural Theory and the Public Space. Her work includes participations in architectural conferences, lectures and seminars. She has completed several scientific publications among which the co-editing of 3 books, 12 publications on scientific journals, 11 on Conferences Proceedings, 5 chapters on collective books e.t.c. As an architect she has also participated in Architectural Competitions and Exhibitions of Architectural Work.
